

One-stop docking

dynadock™ U3.0

Connects to your network and all accessories.

The dynadock™ U3.0 universal USB 3.0 docking station is a one-stop USB docking solution for your Windows-based PC, linking all your devices, external monitors and sound system with one quick, cable connection.

The upright slim design saves valuable desktop space and reduces cable clutter. Once set up, the dynadock™ U3.0 becomes your central docker for your laptop accessories.

Connect up to 6 screens with the dynadock™ U3.0. And thanks to the powerful video controller, the dynadock™ U3.0 can be connected via HDMI and DVI ports to HD monitors or TVs.
