

Store more

Store more with the power-efficient MD Series SATA 3.5" internal hard drives from Toshiba. Add up to 6 TB and experience the performance and reliability stemming from over 40 years of hard drive development.

Including the technologies Tunnel Magneto Resistive (TMR) and Perpendicular Magnetic Recording (PMR) the MD Series achieves higher density recording to increase capacity and speed. Thanks to the 7200 rpm platter, a 128 MB memory buffer and Native Command Queuing you'll work faster than ever. But despite the speed, the power-friendly components keep energy consumption and heat build-up at a minimum.

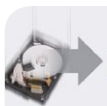

Noise levels are low, too, making the MD Series a joy in any environment. Best of all, you'll be rest assured that your critical data is safeguarded thanks to clever ramp-loading technology and built-in shock sensor.

3.5" SATA Hard Drive MD Series

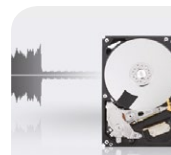

Innovative Heads

The MD Series reaches new levels of performance thanks to tried-and-tested PMR and TMR disk read-write technology.

Safe Data

To protect your critical data, the MD Series comes with a built-in internal shock sensor and ramp-loading technology.

Silent efficiency

The MD Series carries out its tasks with smooth efficiency. The low noise level makes it ideal for home as well as for office use.

3.5" SATA Hard Drive MD Series

Specifications

Part number:	3.5" SATA Hard Drive - MD Series - 4 TB: PX3009E-1HP0 3.5" SATA Hard Drive - MD Series - 5 TB: PX3010E-1HQ0 3.5" SATA Hard Drive - MD Series - 6 TB: PX3013E-1HR0
Interface:	SATA
Max. transfer rate:	~ 6.0 Gbs
Rotational speed:	7200 rpm
Buffer:	128 MB
Available capacities:	4 TB, 5 TB, 6 TB
Native Command Queing (NCQ):	supported
Voltage (V); Supply:	+5VDC (±5%) / +12VDC (+/-10%)
Consumption - Read/Write:	11.3 W
Consumption - Active Idle:	7.5 W
Consumption - Low Power Idle:	6.0 W
Consumption - Stand-by mode:	max. 1.2 W
Dimensions:	147 (L) x 102 (W) x 26 (H) mm
Weight:	ca. 720 g
System Requirements:	Windows 8.1 / Windows 8 / Windows® 7 Mac OS® X or Linux
