

## **DYNABOOK BOLSTERS DEVICE RANGE WITH PERFORMANCE**

### **DRIVEN 15" SATELLITE PRO L50-G**

- ***Combining latest performance-enhancing technology in a cost-effective and lightweight device***
- ***10<sup>th</sup> Generation Intel® Core™ Processors, Wi-Fi 6, SSD/HDD dual storage and up to 10-hour battery life***

**26th November 2019, Neuss, Germany** – Dynabook Europe GmbH today announces the launch of the Satellite Pro L50-G – the perfect combination of cost-effectiveness and cutting-edge technology in a lightweight business laptop. The new device offers businesses, especially SMBs, the performance, reliability, flexibility and connectivity they need to be productive in the office, or out on the road.

#### **Superb performance, latest technology**

The Satellite Pro L50-G has been designed with enhanced performance in mind. Thanks to its 10th Generation Intel® Core™ Processors, the device is equipped to meet the demands of today's fast-paced, multi-tasking workforce. The latest Wi-Fi 6 connectivity unlocks faster speeds, higher capacity and lower latency. By supporting dual storage with SSD and HDD drives, the device also provides flexibility in terms of performance and storage capacity.

#### **Optimum mobility, perfect productivity**

The new device meets and even exceeds the Microsoft Modern Device standard\* and is packed with a variety of user-friendly features that keep workers productive and connected from any location. It has been engineered to maximise productivity in the office, yet it's remarkably easy to carry, with a 15" FHD non-glare screen, a slight form factor of less than 19.9mm and a light-weight chassis of 1.7kg\*. The Satellite Pro L50-G's quick charge battery provides up to 10 hours of use\*, meaning professionals can rest assured they will remain productive throughout their working day wherever their location.

**Top class connectivity, leading security**

The Satellite Pro L50-G offers a range of the latest connectivity features, including versatile USB Type-C and USB Type-A ports – for all charging, data transfer and peripheral connection requirements. Along with Wi-Fi 6, the device’s Gigabit LAN port enables an easy and quick connection to the Internet. For smooth video conference calls, media playback and visuals, the device also features an HD webcam and Intel Integrated graphics. When it comes to security, the Satellite Pro L50-G is equipable with password-free sign via a fingerprint scanner (SecurePad) and Face Authentication. A webcam shutter slider is also available for further privacy\*.

“The Satellite Pro L50-G demonstrates dynabook’s ability to develop cost-effective devices that never compromise on performance, technology or portability,” commented Damian Jaume, President, Dynabook Europe GmbH. “All our devices are engineered to support the changing ways in which people work; and the Satellite Pro L50-G encompasses all the features the contemporary worker needs to stay on top of the working day”.

The Satellite Pro L50-G will be available from mid December 2019. For more information about the dynabook range please visit [emea.dynabook.com](http://emea.dynabook.com)

\*Subject to configuration.
